Experience

Quality Check Analyst

NexAn Global Services, Lucknow – April 2025 to June 2025

- Performed 1000+ mortgage data quality checks with strong attention to detail.
- Maintained consistent performance under deadline and shifting workloads.
- Provided peer support and live guidance during project operations.

Frontend Developer (Part-Time)

Neplen – Remote – July 2024 to September 2024

- Developed responsive UIs using ReactJS and Tailwind CSS.
- Integrated APIs and fixed layout bugs across devices.
- Delivered clean, optimized code while collaborating with remote teams.

Projects

ShopMate – E-commerce App - [Link](#)

- Built a responsive e-commerce site using React and Tailwind CSS.
- Added category/price filtering and managed cart with Context API + localStorage.
- Used React Router for routing and Vite for fast performance.

CRM Dashboard - [Link](#)

- Developed a fully responsive CRM dashboard with React and Tailwind CSS, featuring customer management and task tracking.
- Implemented localStorage for data persistence, enabling full functionality without backend services.

Skills

Frontend: HTML, CSS, JavaScript, React, Tailwind CSS, React Native (Learning)

Backend (Basic): Node.js, Express.js, MongoDB

AI Tools: ChatGPT, Prompt Engineering
